

This is historic MISSION SANTA INÉS as it once stood. It is this vision that inspires our hopes and plans of restoration. We are grateful to all of our visitors whose thoughtful donations have made possible this labor of love—for no Federal or State funds have been involved.

Any further work on our restoration program will continue to rely on the generosity of present day visitors and benefactors.

Santa Inés*

Welcome To . . .

Follow the layout below to enjoy the 25 minute self-guided tour. You are more than welcome to spend as much time as you like to enjoy the museum rooms, Church and gardens. While you are going through what remains of the original buildings, completed in 1807, we ask that you **do not use any flash photography**, because it damages the collection.

Look for the push buttons in the seven areas marked below with an asterisk * to activate the recorded tour sound system

Our Mission has been in continuous use as a Catholic Church since its founding, and you are welcome to attend Mass in this historic place of worship. During services the museum door into the church will be locked. We are sorry for any inconvenience this may cause, but hope there will be an appropriate time during your visit for you to see the interior of the church.
